PPL Stamp Guidelines

These stamps configuration guidelines have been drafted to help you with the configuration of your stamps and are issued in accordance with physical stamps guidelines from Lloyd's, Lloyd's Brussels, and Velonetic, to achieve greater consistency across the different types of stamps available on PPL.

Contents

Standard stamps

- **Lloyd's & LIC Syndicate stamps**
- **Company stamps**
- **Company non-Bureau stamps**

Non-standard stamps

- **Consortium 9000 series Lloyd's & LIC stamps**
- **Coverholder using 9000 series stamps**
- **Delegated Authority / MGA or Coverholder stamps not using 9000 series**
- **Facility stamps**

[Year of account] is mandatory for Delegated authority, MGA, Consortium, & Coverholder stamps (Expiring/Being Renewed Every Year). [WEF Year of account] for rolling year stamps; The first year of account the stamp could be used on a contract for placement.

Delegated Authority, MGA, & Coverholder stamps not using 9000 series numbers = Premium/Claims settled direct with [Company name] or Premium/Claims settled with insurers via [XIS Code]

Tiny URL https://tiny.one/PPL9000 should be used where the stamp character count exceeds 256 due to a long participation breakdown.

PPL and LBS have agreed that the PPL description of these stamps can be abbreviated to fit within the 256character limit. Please contact the support desk for assistance.

Lloyd's Brussels have however stated that the usage of this stamp template will be strictly enforced and cannot be altered. Service Companies and Coverholders must apply this stamp format when stamping Open Market risks.
